- BUBBLE WRAP ALTERNATIVE POUCH
- HAMPER BOX

**03** Friendly Impact Cushioning

**02** Friendly Water-Activated Sticker

**04** Friendly Compostable Screen Printing

**01** Friendly Barrier Packaging

# Sustainable Packaging Product Range

# Friendly Barrier Packaging

01

Our Friendly Barrier Packaging provides protection against oil, water and moisture. Made from plant-based sources leveraging principles of green chemistry, our coating solutions are as sustainable as they come! Locally sourced, locally manufactured and available for high volume applications.

Our barrier coated packaging solution completely eliminates the need of PE coated paper, lamination and other plastic film applications, most of which end up in our landfills and worse, water bodies.

Suitable for coating paper packaging and pulp containers.

## APPLICATIONS:

DRY & WET FOOD | BAKERY | E-COMMERCE  
TAKEAWAY | MITHAI | GIFTING

## NO COMPROMISE LIST

PERFLUOROCARBONS FREE - FOOD GRADE  
ZERO SYNTHETIC CHEMICALS  
100% HOME COMPOSTABLE

Choose from a wide range of paper:  
Kraft Paper | White Paper | Grey board  
100% recycled colour paper | Corrugated sheet  
Seed Paper | Tree-free Paper

OIL-RESISTANT | GREASE PROOF |  
WATER-RESISTANT | MOISTURE RESISTANT

## Water-Activated Sticker

We provide custom printed stickers in varied shapes and sizes with a water-activated glue base. Our in-house concocted glue is nature-based and applied directly on the package with water.

The glue used for labels and stickers is a synthetic polymer and the sheet uses a silicon layer making it harmful to the environment. Our friendly glue completely eliminates the use of dual materials and is home compostable and food grade. We make custom-printed paper labels and stickers.

### APPLICATIONS:

LABELS & TAGS | STICKERS | ENVELOPE SEALS

### NO COMPROMISE LIST

# Friendly Impact Cushioning

03

100% natural with biodegradable fibre used for packing fragile items and protect goods against shock in transport. Hassle-free boxing and unboxing with custom pouch sizes and rolls. Custom branding and varied thickness available.

Plastic bubble wrap is not a sustainable form of packaging. It is not recyclable and increases our carbon and environmental footprint.

P.S. Our packaging solution has passed the 6 ft drop test.

## APPLICATIONS:

BUBBLE WRAP ALTERNATIVE | BOX LINER  
PROTECTIVE POUCH | GIFT HAMPER TRAY

## NO COMPROMISE LIST:

# Friendly Compostable — 04

## Screen Printing

Our printing solutions are 100% natural and non-toxic. Eco-friendly and biodegradable pigments are used for making this water-based ink used for screen printing. Available in a wide range of colours.

Commercial inks are made with petroleum-based chemicals. The volatile organic compounds (VOCs) and heavy metals in ink can lead to soil and even water pollution when left in landfill.

### APPLICATIONS:

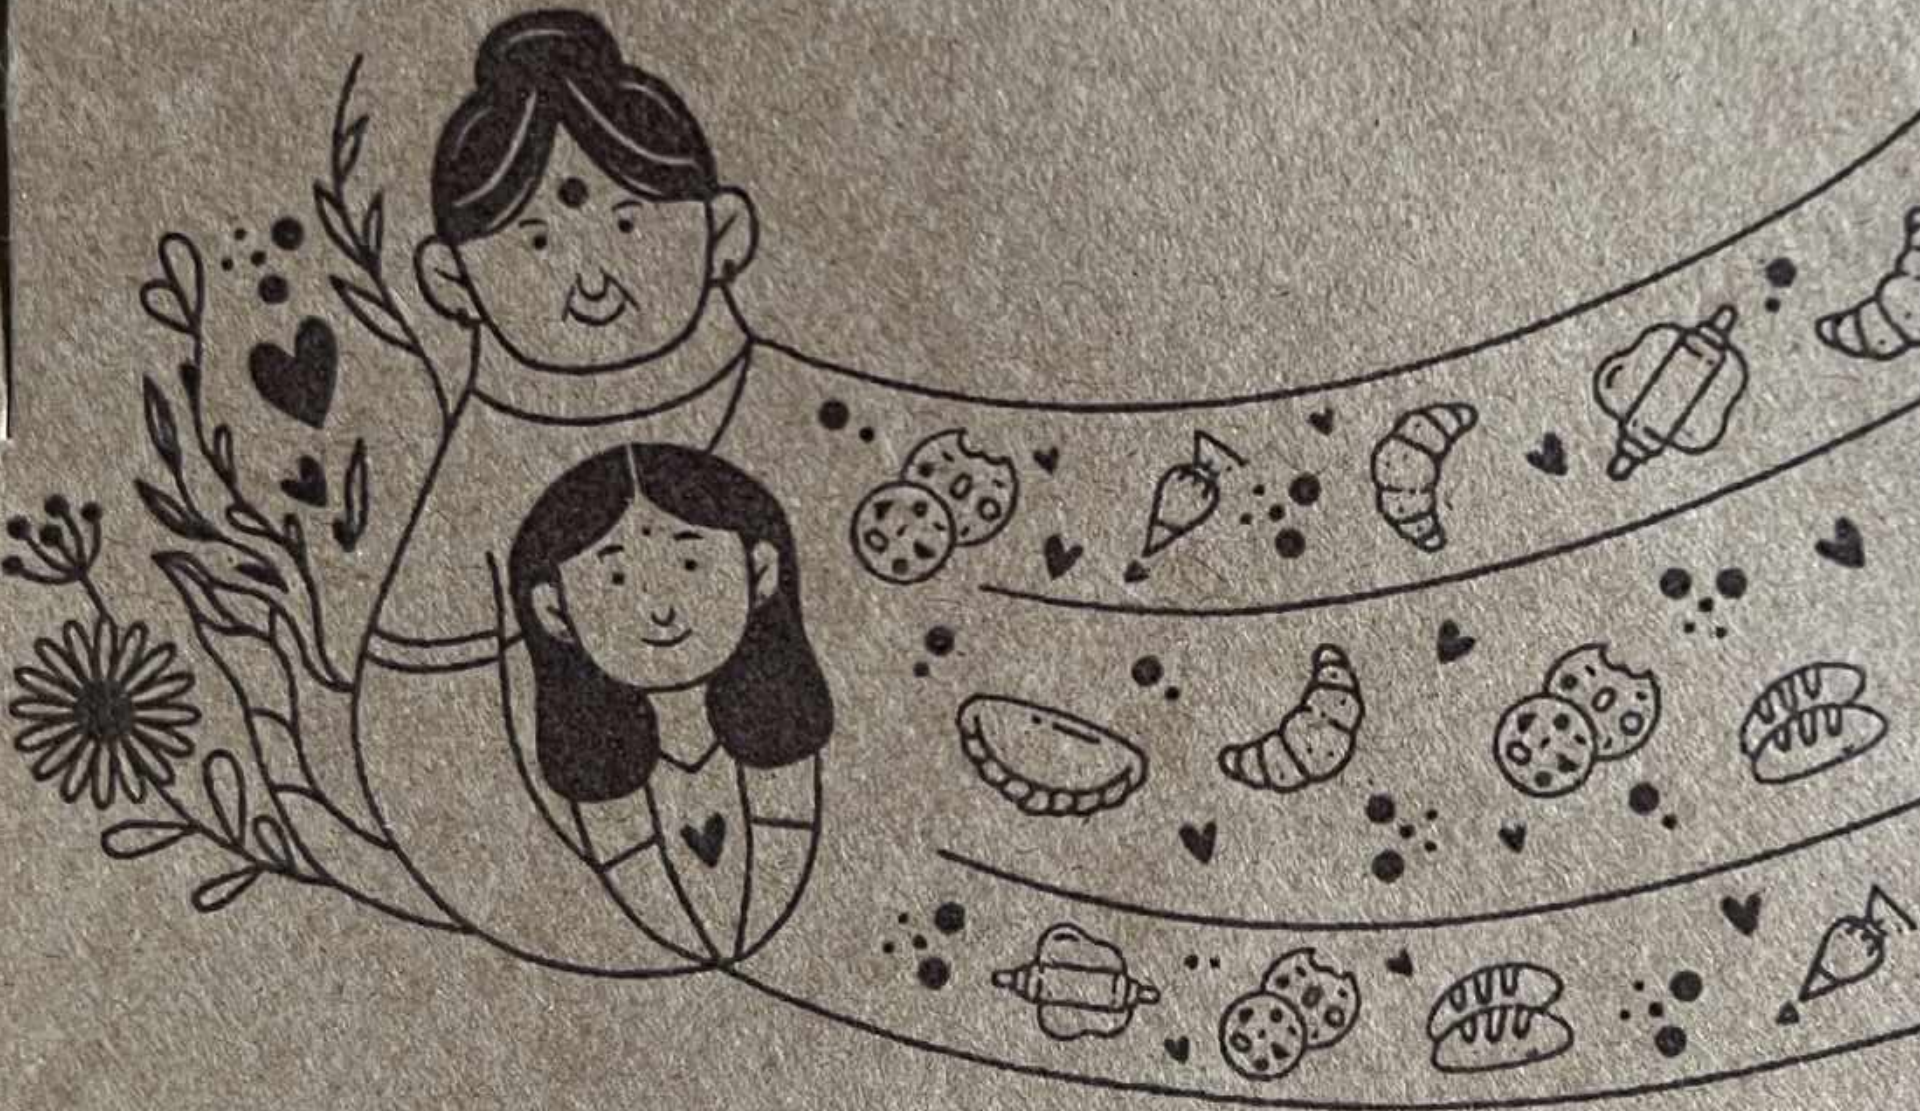

DIRECT PRINTING ON SACHET, ENVELOPE, BOX, BAG, TAG | LABEL | CUSTOM STICKER

### NO COMPROMISE LIST:

PLASTIC FREE (NO PVC OR PLASTISOL)  
FOOD GRADE | HOME COMPOSTABLE  
NO SYNTHETIC CHEMICALS

# Didn't find a suitable solution for your business?

At Go Do Good, we love to innovate and develop packaging solutions and alternatives to plastics from the bountiful supply of materials from nature.

We firmly stand by our philosophy that the only true recycler is the earth beneath our feet and all our materials are made to adhere to this.

We are constantly looking out for new solutions and new packaging challenges to solve for our clients- big and small.

Have a packaging problem you would like to discuss?

Let's get talking. We can develop a tailor-made solution as per your need!

# Let's start this journey together on a sweet note :)

**How to place an order?**

Send a mail with the following details:

Purpose of packaging

Quantity | Size | Ref photo

Printing - Y/N
